

## Trainee Ice Pigging Operative – Water Operations

This is an ideal opportunity for someone wanting to start their career and join a growing team as we develop new markets and applications within Ice Pigging.

The purpose of the role is to join the Ice Pigging operations team. The role provides hands-on training and development to build the skills and knowledge required to work safely and effectively within a small Ice Pigging delivery team.

We recognise our employees are our most important and greatest asset, and we understand that we could not accomplish what we do every day without our valued team.

We offer a salary of £ £24,654.39 + overtime for out of hours, 1% benefit allowance, pension, 36 days annual leave including bank holidays - rising to 38 days after 3 years of service, wellbeing days, life assurance, salary sacrifice schemes and more.

### **What will I be doing?**

- Work as part of a team to deliver Ice Pigging operations.
- Follow strict health, safety and environmental procedures at all times.
- Contribute to project documentation and reporting.
- Communicate effectively with team members, supervisors, and clients onsite.
- Participate in ongoing training and development to achieve full operational competency.
- Carry out general administrative duties as required.
- Comfortable using hand tools and working in a practical, often physical environment.
- HGV driving – Possibility to work towards HGV Class 1 & 2 license if desired.
- At all times work in a way that demonstrates the Company's business methods.
- Listen and relay market intelligence.
- Maintain high standards in terms of conduct and respect of Company property.

**Location:** Pucklechurch depot, Bristol. Travel throughout the UK and occasionally across Europe will be necessary for projects. Typical site locations can include: large storage and ice making facilities, drinking water and wastewater networks and assets, manufacturing and production plants and construction sites.

The working hours are 37.5 per week from Monday to Friday, 7.5 hours per day. Overtime paid for working out of hours.

### **What are the requirements?**

Essential:

- Clean driving licence.
- Ability to follow instructions and work well in a team.
- Willingness to undergo training and develop technical skills.
- Computer literate and competent in the use of Microsoft Office Packages.

Desirable:

- Experience within water industry, civils or other engineering disciplines.
- HGV driving licence.
- Interest in machinery operation and mechanical systems.
- Basic understanding of safety regulations in an industrial setting.

### **Who we are**

SUEZ is a major player in environmental services. For almost 160 years, SUEZ has supported local communities and industrial companies in the management of essential services such as water, waste, and air quality. As such, SUEZ produces drinking water for 66 million people worldwide, recovers 2 million tons of secondary raw materials per year, and generates 3.1 TWh of renewable energy from waste.

SUEZ is the worldwide patent holder and the UK's sole service provider of Ice Pigging, a highly effective, low-risk alternative to conventional pipe cleaning methods. Ice Pigging uses a soft, pumpable ice slurry that efficiently removes sediment, biofilm and contaminants from pipe networks. It has a wide range of applications across the water industry along with rapidly increasing uptake for commissioning of District Heating networks. This award-winning technology is a testament to SUEZ's commitment to promoting the circular economy.
